

Vertically Aligned Tutoring Plan for Zoey (Once Per Week)

Grade Level: Entering 4th Grade

Assessment Score: 66.67%

Instructional Focus: Strengthen 3rd-grade TEKS foundations while preparing for 4th-grade Readiness Standards.

1. Summary of Strengths (Based on Her Responses)

Zoey answered correctly on:

- **Fractions:** addition, equivalence (3.3D, 3.3G, 3.3H)
- **Geometry:** angle identification (3.6A)
- **Area & Volume:** area of rectangles, volume of rectangular prisms (3.6C)
- **Prime/composite:** strong number sense
- **Basic operations:** addition, division, multi-step word problems

These strengths align well with 4th-grade TEKS expectations.

2. Identified Areas for Growth (Based on Incorrect Items)

! Missed Items & TEKS Connections

Missed Question	Skill Gap	3rd Grade TEKS	4th Grade TEKS
Q6 – Factors of 24	Needs deeper understanding of factors & multiples	3.4(D), 3.4(E), 3.4(F)	4.4(H), 4.4(D), 4.4(E)
Q11 – Mean	Data analysis: mean, interpreting data	3.8(A), 3.8(B)	4.9(A), 4.9(B)
Q13 – Rounding decimals	Decimal place value & rounding	<i>Decimals not taught in 3rd grade</i>	4.2(B), 4.2(E), 4.2(F), 4.2(H)

These are **normal gaps** for a rising 4th grader—especially decimals, which are introduced for the first time in 4th grade.

3. Once-a-Week Tutoring Plan (12 Weeks)

This plan builds prerequisite skills first, then transitions into 4th-grade readiness.

Phase 1: Strengthen 3rd-Grade Foundations (Weeks 1–4)

Vertically Aligned Tutoring Plan for Zoey (Once Per Week)

Week 1 – Factors, Multiples & Number Relationships

- Review equal groups, arrays, skip counting
- Build factor lists using arrays & area models
- TEKS: 3.4(D), 3.4(E), 3.4(F) → prepares for 4.4(H)

Week 2 – Data Analysis: Mean, Mode, Range

- Use dot plots, frequency tables
- Build conceptual understanding of “fair share” for mean
- TEKS: 3.8(A), 3.8(B) → prepares for 4.9(A), 4.9(B)

Week 3 – Rounding Whole Numbers

- Number lines, benchmark numbers
- TEKS: 3.2(C) → prepares for 4.2(B), 4.4(G)

Week 4 – Multi-Step Word Problems

- Use strip diagrams
- Emphasize interpreting remainders
- TEKS: 3.4(A), 3.5(A) → prepares for 4.4(H)

Phase 2: Introduce 4th-Grade Readiness Concepts (Weeks 5–9)

Week 5 – Decimal Place Value (Tenths & Hundredths)

- Money models
- Base-10 blocks
- TEKS: 4.2(E), 4.2(H)

Week 6 – Comparing & Ordering Decimals

- Number lines
- Visual models
- TEKS: 4.2(F)

Week 7 – Adding & Subtracting Decimals

- Standard algorithm
- Estimation for reasonableness
- TEKS: 4.4(A)

Week 8 – Multiplication (2-digit × 1-digit)

Vertically Aligned Tutoring Plan for Zoey (Once Per Week)

- Area models → partial products → standard algorithm
- TEKS: 4.4(D)

Week 9 – Division (Up to 4-digit ÷ 1-digit)

- Arrays, area models, repeated subtraction
- TEKS: 4.4(E), 4.4(F)

Phase 3: Application & STAAR-Style Problem Solving (Weeks 10–12)

Week 10 – Fractions Review & Mixed Numbers

- Benchmark fractions
- Number line representations
- TEKS: 4.3(D), 4.3(E), 4.3(F)

Week 11 – Geometry & Measurement

- Perimeter, area, angles
- TEKS: 4.5(D), 4.6(D), 4.7(C)

Week 12 – Mixed Review & Performance Task

- Multi-step problems
- Real-world applications
- TEKS: All major Readiness Standards

4. Instructional Approach (Aligned to Plfinity Style)

- Visual models first → abstract later
- Spiral review each week
- Real-world application problems
- Confidence-building through small wins
- Progress monitoring every 4 weeks
- Parent communication after each milestone

5. Optional Add-Ons for the Family

- A personalized practice packet
- A progress dashboard
- A mid-summer check-in assessment
